EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Stephen Barone on July 27, 2005.

The application has been amended as follows:

- (1) Cancel claim 33.
- (2) Cancel claim 71.
- (3) Insert "published as WO 99/04827 on February 04, 1999," after "PCT/AU98/00582, filed on July 23, 1999," and before "which claims the benefit of Australian Application No. PCT/AU97/00467, filed on July 24, 1997." on the first page of the specification.
- (4) Insert ", published as WO 99/04826 on February 04, 1999" following "which claims the benefit of Australian Application No. PCT/AU97/00467, filed on July 24, 1997" on the first page of the specification.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The closest prior art, Watson et al. (WO 93/15768) teaches the use of non-diamond carbon allotropes as diagnostic agents. There is no teaching in Watson et al. of a method of

Art Unit: 1617

detecting fibrin, however. Furthermore, the combination of Watson et al. with Reno et al. (USPN 5217705) does not render the claimed invention obvious because the method of preparing the particles in independent claims 80, 81 and 82 (i.e. heating between 2250° C and 3000° C) would preclude the surface of the graphitic carbon from being functionalized in a manner as suggested in the 35 USC 103 rejection of the Office Action dated January 11, 2005.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
